

26.3.2018

Efrin IDPs;

-Since 20-1-2018 the population of Efrin in the border areas were leaving the clashes areas toward the city of Efrin, and living in very difficult environment and protecting in the basements with huge number of IDPs to the city of Efrin.

In the middle of March of 2018, Turkey and its allies could control city after YPG asked the people to leave since there were expectation that the city will have long fighting between the parties.

-Most of the people leaved the city to the area surrounding Til Refat (Shehba area), 300.000 were displaced to different areas. In TilRifat area 100.000 were registered while the total expected number is about 160.000 IDPs, the rest were in the area of Sherawa, Noboul, Zehraa, and many families were displaced to Aleppo.

Less numbers could manage to arrive to Minbij area 1500 family.

And less arrived to east of Ephrata and NES (Kobane-TilTemir-Qamishli- Newroz camp...).

Although the respond of the local people was so useful, but more respond is needed in the Shahba (TilRifat) area including all sectors:

- Shelter (tents): one camp has been established so far, and there are preparation for building other 2 camps in the area.

-Health (Primary and Secondary Health Care), KRC is already using the fixed facilities Emergency Primary health Care centers –there are 5 health available polyclinics- and prepare to work in the established camps, the referral to secondary health care is difficult since Nubol and Zahra hospital are not free care, and Aleppo has difficult accessibility.

KRC has moved also 3 mobile clinics to cover the basic PHC, but there is need for support in Maternity basically.

There is urgent need to support patients with (Insulin depending Diabetis- Talasemia- Dialysis- Vaccination)

Wash: there is need for clean water for wash and for drinking, it is expected to face Epidemic diseases in cases there are weren't more respond in this sector, (there were official call from the health committee in Shahbe for supporting in wash, otherwise there will be bad health results).

-Protection : according to many scared to come back to Efrin, many cases those were back unknown areas (suspected to be

meetings with IDPs, they are especially after knowing that were taken by FSA and Turkey to Ezaz), mostly young people.

According to the local committees there is serious scares of Ethnic clearance of the population of Efrin.

Urgent Needs

- Medical drugs, emergency drugs and medical supplies for ambulances, (PHC list to be attached)
- Ambulances, Mobile clinics.
- Food supplies (to be attached)
- Winter clothes,
- Tents
- Dairy products for babies and children.

Food Basket + Basic Health Basket including separately:

	Item	Numbers of items	Price USD
1	ENDOMI	10	1.44
